

SUMMER JACKETS

We sent Bill Coughlan and Charlie Kininmonth to an ordinary British high street to see if a Chap can buy a decent linen jacket

Models: (left) Bill Coughlan, (right) Charlie Kininmonth

FRENCH CONENCTION @ MOSS BROS

www.moss.co.uk

100% Linen, tailored fit, nice textured finish and jetted pocket flaps; extremely and practically lightweight even though fully lined.

TU@SAINSBURY'S
www.sainsburys.co.uk

Cotton linen mix. Bargain basement price but surprisingly well constructed and fully lined. Probably won't crease as much as pure linen, which for some would be a disadvantage.

DARCY CLOTHING
www.darcyclothing.com

100% Cotton drill workman's jacket, available in beige or navy blue with patch pockets. One could wear it equally to fix the boiler or attend a picnic.

JIGSAW
www.jigsaw-online.com

Perhaps the raciest number, with its DB lapels and Fitzcarraldo shade of off-white, and seems durable enough to survive a sweaty trip to the Amazon.

EDE & RAVENSCROFT
www.edeandravenscroft.co.uk

100% Italian linen, real horn buttons. The priciest in our range but benefits from 300 years of tailoring experience from London's oldest tailor and robe maker.
