

A DISCREET GENTLEMEN'S EMPORIUM
Open for business 24 hours a day

Departments: Grooming, Reading, Smoking, Listening, Gift Boxes

Our extensive new **grooming department** now stocks a vast range of gentlemanly unguents, lotions, potions and lathers, as well as the hardware required to remove stubborn bristles. Moustaches, obviously, are well catered for as well. Our **gift boxes** provide the perfect introduction to Chappishness, via a collection that will set any proto-gentleman well on his way to Niven-like Nirvana.

Back issues of our humble publication are available, stretching right back to the early days, long before the advent of colour printing and before chunky cardigans became fashionable.
